

# CAPP Rondo

## MINI INCUBATOR WITH COOLING

The **CAPP Rondo Mini Incubator** is a compact, multifunctional device that will be an excellent addition to any laboratory.

Featuring built-in digital temperature control and a wide thermal range (-15°C to 60°C), the **CAPP Rondo Mini Incubator** is more than capable of meeting daily heating and cooling tasks.

### Features:

- A microprocessor controlled thermal system allows operators to set their desired temperature once on an intuitive control panel
- A large LED display shows the temperature of the internal chamber in real time
- With a small footprint of only 13 x 14.5" the **CAPP Rondo Mini Incubator** comfortably fits on most laboratory workbenches.
- At just 6.5 kg, the **CAPP Rondo Mini Incubator** can be conveniently moved from one workstation to another.
- With a volume of 20L and a large internal chamber, the **CAPP Rondo Mini Incubator** has a generous loading capacity that fits 2L bottles.
- A bright light fixture allows easy viewing of all items in the internal chamber.
- An internal power outlet can power small instruments such as small shakers, rockers, rollers, or other similar instruments.
